Skills Agenda for Europe

Action 8: Skills for Life

The Commission, together with Member States, will work on new priorities for the European Agenda for Adult Learning to complement the renewed European cooperation framework in education and training and to support the achievement of United Nations' Sustainable Development Goals. It will aim towards building comprehensive, quality and inclusive adult learning systems, which reach out to all, including seniors and in particular those most in need of access to learning, including through distance and online learning. It will prioritise non-formal, life-wide learning, intergenerational, intercultural and community learning. Local learning centres, libraries and the wider community and civil society will be supported to work together to motivate and enable adults to learn, thus supporting crisis resilience.
