MAISONS FAMILIALES RURALES

A structured organization

From the beginning the Maisons Familiales Rurales in France understood the need to get organized in order to bring together the initiatives emerging across the country and facilitate communication between them.

As a result associations have grouped and formed a "Union Nationale", based in Paris; then progressively county and regional federations were created in order to give a better support to the network and to match the French administration's organization.

At the same time, the Maisons Familiales Rurales also set up a Training Centre called Centre National Pédagogique aimed at training new moniteurs, offering continuing training for the experienced ones and providing research on the alternate training system. Creation of the Maisons Familiales Rurales' International Association (AIMFR) was decided on by the European, African and Latin America representatives gathered in Dakar in 1975. This association is the world Federation of all the Maisons Familiales Rurales organizations. Its objectives are to represent the Maisons Familiales Rurales in the international bodies (such a Food and Agriculture Organization, European Union...) to maintain liaison and exchanges of experiences between the MFRs and to promote the MFR's principles and methods across the world.
MAISONS FAMILIALES RURALES

A Maison Familiale Rurale: a close-knit and personalized organization

The typical MFR counts no more than 130 students (14 to 25 years old) who “alternate” meaning, there are no more than 65 students at one time in the school. The rooms are set up in such a way that everyone can feel comfortable and have relationships in a family atmosphere though there are some demanding rules regarding education in general. There is a limited number of pupils or adults at the Maison Familiale Rurale each week. So the team of "moniteurs" is limited as well.

"Moniteurs", technicians, and youth guide

The "Monitrices" or "Moniteurs" stay all day long at the Maison Familiale Rurale. They have various functions: they are teachers, educators, counsellors supporting each youngster's project, they get involved in local development, they ... They are qualified to implement the alternate training pedagogy and they know very well the Maison Familiale Rurale's environment, the youngsters, their families and the company tutors.
MAISONS FAMILIALES RURALES IN THE WORLD
